

80A Mini AC/DC Clamp Meter

Small diameter elongated jaw

Designed for high resolution current measurements in hard to reach locations. This mini-clamp performs AC and DC low current tests where typical clamps cannot go.

Features:

- 4000 count LCD display
- 4A range with 1mA resolution for accurate low current measurements
- Jaw opens to 0.5" (12.7mm)
- AC/DC Voltage, Resistance, Frequency, Capacitance, and Duty Cycle
- Diode Test/Continuity Beeper
- Data Hold
- Complete with test leads, two 1.5V AAA batteries, and carrying case

Mini size jaw conveniently reaches into narrow spaces for taking Current measurements where typical clamp size meters cannot go.

| Specifications | Range | Resolution | Accuracy (%rdg+digits) |
|------------------|---------------------------------------|-------------|------------------------|
| AC Current | 4A, 80A | 1mA | $\pm (2.5\% + 5d)$ |
| DC Current | 4A, 80A | 1mA | $\pm (2.5\% + 4d)$ |
| AC Voltage | 400mV to 600V | 0.1mV | $\pm (2.0\% + 4d)$ |
| DC Voltage | 400mV to 600V | 0.1mV | $\pm (1.5\% + 3d)$ |
| Resistance | 400Ω to $40M\Omega$ | 0.1Ω | $\pm (1.5\% + 2d)$ |
| Frequency | 5Hz to 10MHz | 0.001Hz | $\pm (1.2\% + 3d)$ |
| Duty Cycle | 5 to 99.9% | 0.1% | $\pm (1.2\% + 3d)$ |
| Dimension/Weight | 8.3x2.8x1.5" (210x70x37mm)/7oz (200g) | | |
